

StaSolv[™] 213

Paraffin Solvent, Dispersant & Degreaser

PHYSICAL DESCRIPTION	Appearance	Clear, Colourless to Pale Yellow, free-flowing liquid
	Freezing Point	< -40°C
	Flash Point	-30°C (PMCC)
	Specific Gravity	0.65 – 0.76
	Solubility	Oil – Soluble
	Odour	Hydrocarbon
PROPERTIES	StaSolv™ 213 is our specialized premier well optimization and wax solvent, composed only of refined, paraffin-free hydrocarbon products, that contains a field-proven wax dispersant and a powerful degreasing additive	
	StaSolv™ 213 is often recommended to treat wells with long chain wax deposits and tough, aged and hard deposits.	
	StaSolv™ 213 can be used to aid in cleaning up sludge and emulsions, workover fluids or as a heavy crude oil diluent.	
	StaSolv™ 213 will not alter natural wettability within downhole formations, but will penetrate fouling on formation surface and help remove waxy deposits, through dual action of the dispersant and degreasing additive.	
BENEFITS	StaSolv ^{M} 213 will soften and help remove paraffin deposits with chain lengths from C ₁₆ to C ₄₄₊ , that collect on both down-hole and surface production equipment.	
	StaSolv™ 213 allows effective wetting of downhole surfaces; dispersant will act as a surface penetrant of paraffinic deposits.	
	StaSolv™ 213 is also a capable degreaser, leading to further cleaning of down hole and surface production equipment.	

StaSolv[™] 213

Paraffin Solvent, Dispersant & Degreaser

MIXING & HANDLING INSTRUCTIONS	 StaSolv[™] 213 should be applied in neat form, typically with dosages of 1000 to 2000ppm in produced oil for continuous injection purposes. StaSolv[™] 213 is designed to remove and disperse paraffinic deposits. StaSolv[™] 213 can be applied on a continuous basis or batch application. For maximum effectiveness, a shut period is recommended to assist in maximum paraffinic deposit removal if a batch application is used.
CAUTION	 Highly flammable liquid and vapour. May be fatal if swallowed and enters airways. Harmful in contact with skin. Causes skin irritation and causes eye irritation. May cause drowsiness or dizziness. Suspected of causing cancer. May cause damage to organs through prolonged or repeated exposure. Handle with care as with any industrial chemical. Before using this product refer to the Safety Data Sheet for all safety and handling information. StaSolv™ 213 is available in 20L pails, 205L drums, 1000L totes and in bulk. Please consult your local CFR Sales representative for technical support or further product inquiries.
