

## Paraffin Solvent, Dispersant & Oil Soluble Scale Inhibitor

### PHYSICAL DESCRIPTION

Appearance	Clear, Light Orange, free-flowing liquid
Freezing Point	< -40°C
Flash Point	-30°C (PMCC)
Specific Gravity	0.76 – 0.80
Solubility	Oil – Soluble
Odour	Hydrocarbon

### PROPERTIES

StaSolv™ SI 114 is a specialized paraffin solvent and scale inhibitor that is formulated with aromatic and aliphatic solvents.

StaSolv™ SI 114 is often recommended to treat wells with long chain wax deposits that also have scaling tendencies.

StaSolv™ SI 114 will not alter natural wettability within downhole formations, but will penetrate fouling on formation surface and help remove waxy deposits.

StaSolv™ SI 114 is also a capable degreaser, leading to further cleaning of down hole and surface production equipment.

### BENEFITS

StaSolv™ SI 114 functions to help remove and disperse paraffin deposits that can collect on both downhole and surface production equipment. This product also prevents formation of scale deposits, which can act as nucleation sites for wax deposits.

StaSolv™ SI 114 contains a general-purpose, oil-soluble scale inhibitor that helps prevent formation of carbonate and some sulfate scales.

### Paraffin Solvent, Dispersant & Oil Soluble Scale Inhibitor

#### MIXING & HANDLING INSTRUCTIONS

StaSolv™ SI 114 should be applied in neat form..

StaSolv™ SI 114 is best applied on a continuous injection basis, with typical rates being 1-2 L of product per cube of fluid.

Improved overall stimulations will result when used in conjunction with a CFR Dispersant and Wax Inhibitor Package.

#### CAUTION

Highly flammable liquid and vapour. May be fatal if swallowed and enters airways. Harmful in contact with skin. Causes skin irritation and causes eye irritation. Harmful if inhaled. May cause drowsiness or dizziness. Suspected of causing cancer. May cause damage to organs through prolonged or repeated exposure.

Handle with care as with any industrial chemical.

Before using this product refer to the Safety Data Sheet for all safety and handling information.

StaSolv™ SI 114 is available in 20L pails, 205L drums, 1000L totes and in bulk.

Please consult your local CFR Sales representative for technical support or further product inquiries.
