

Date of Revision: March 15, 2022

### **Section 1 - Chemical Product and Company Identification**

Product Name CCS-104

Synonyms CFR Clay Stabilizer - 104

Product Use Clay stabilizer
Restriction on Use None identified
Manufacturer/Supplier CFR Chemicals

38451 Range Road 22

County of Red Deer T4E 2N6

**General Assistance** 1 (877) 269-3419

Emergency Telephone 613-966-6666 (CANUTEC 24 Hour Phone Number)

**Date of Preparation of SDS** April 1, 2017

### Section 2 – Hazard Identification

Signal Word GHS Pictogram(s)

Danger

**Hazard Statement:** 

H226 Flammable liquid and vapour.

H301 +H311 +H331 Toxic if swallowed, in contact with skin or if inhaled.

H315 Causes skin irritation.

H319 Causes serious eye irritation. H370 Causes damage to organs.

**Precautionary Statement** 

Prevention

P210 Keep away from heat, hot surface, sparks, open flames and other ignition sources.

No smoking

P233 Keep Container tightly closed.

P240 Ground and bond container and receiving equipment.

P241 Use explosion-proof electrical/ventilating/lighting equipment.

P242 Use non sparking tools.

P243 Take action to prevent static discharges.

P260 Do no breathe dust/fume/gas/mist/vapours/spray.

P264 Wash thoroughly after handling.

P270 Do not eat, drink or smoke when using this product.
P271 Use only outdoors or in a well-ventilated area.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

Response

P321 Specific Treatment (see label)

P301 + P310 IF SWALLOWED: Immediately call a POISON CENTRE or doctor/physician.

P330 Rinse mouth.

Date of Revision: March 15, 2022

P302 + P352 + P312	IF ON SKIN: Wash with plenty of water. Call a POISON CENTRE or doctor/physicial if you feel unwell.		
P303 + P361 + P353	IF ON SKIN (or hair) Take off immediately all contaminated clothing, rinse skin with water (or shower).		
P304 + P340 + P311	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTRE or doctor/physician.		
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.		
P308 + P311	IF exposed or concerned: Call a POISON CENTRE or doctor/physician.		
P332 + P313	If skin irritation occurs: Get medical advice/attention.		
P337 + P313	If eye irritation persists: Get medical advice/attention.		
P361 + P364	Take off immediately all contaminated clothing and wash it before reuse.		
P370 + P378	In case of fire: use appropriate media to extinguish.		
Storage			
P403 + P233 + P235	Store in well-ventilated place. Keep contained tightly closed. Keep Cool		
P405	Store locked up.		

Disposal

P501 Dispose of contents/container to an approved waste disposal unit.

**GHS Classification** Flammable liquids (Category 3)

Acute Toxicity, Oral (Category 3)
Acute Toxicity, Inhalation (Category 3)
Acute Toxicity, Dermal (Category 3)
Skin corrosion/irritation (Category 2)

Serious eye damage/eye irritation (Category 2A)

Specific target organ toxicity - single exposure (Category 1)

**HMIS Classification** 

Health Hazard 2
Chronic Health Hazard \*
Flammability 3
Physical Hazards 0

**Potential Health Effects** 

Inhalation Toxic if inhaled. May cause respiratory tract irritation.Skin Toxic if absorbed through skin. Causes skin irritation.

**Eye** Causes serious eye irritation .

**Ingestion** Toxic if swallowed.

## Section 3 – Composition Information on Ingredients

HAZARDOUS INGREDIENT	Hazardous Ingredient, Synonyms	PERCENT	<b>CAS NUMBER</b>
Methanol	Methyl alcohol, wood alcohol, carbinol, wood spirits, methyl hydroxide, methyl hydrate	20 – 30%	67-56-1
Benzyltrimethylammonium chloride	Not applicable	70 – 80%	56-93-6

Date of Revision: March 15, 2022

Chemical Formula Mixture

#### **Section 4 - First Aid Measures**

**Inhalation** Move casualty to fresh air and keep at rest. If breathing is difficult, give oxygen. If

not breathing, give artificial respiration. Get medical attention.

**Eye Contact** Immediately flush eyes with plenty of water, occasionally lifting the upper and

lower lids. Check for and remove contact lenses. Continue to rinse for at least 15

minutes. Get medical attention.

**Skin Contact** Flush contaminated skin with plenty of water. Remove contaminated clothing and

shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash

clothing before reuse. Clean shoes thoroughly before reuse.

**Ingestion** Get medical attention immediately. Call a poison control center or physician.

Wash out mouth with water and give one half to one glass of water to dilute stomach contents. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Aspiration hazard if swallowed. Can enter lungs and cause damage. Do NOT induce vomiting. If vomiting occurs, the head should be kept low so vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as

collar, tie, belt or waistband.

Most Important Symptoms/Effects

Acute Poison. Toxic if swallowed, inhaled, or in contact with skin. Causes skin irritation,

and serious eye irritation.

Note to Physician When plasma methanol concentration is higher than 20mg/dL, a 10% solution of

ethanol in 5% aqueous dextrose is an effective intravenous antidote.

## Section 5 – Fire-Fighting Measures

Flash Point (°C) 46.1°C Flash Point Method PMCC

**Auto Ignition Temperature** Not determined.

**Conditions of Flammability** Flammable in the presence of a source of ignition when the temperature is above

the flash point.

**Extinguishing Media**Use water fog, alcohol-resistant foam, dry chemical or carbon dioxide

**Unsuitable Extinguising Media** Water jet.

**Unusual Fire/** 

**Explosion Hazard** Vapors may collect in low spots and "flash back" from ignition sources.

Lower explosive limit = 6%, upper explosive limit = 36.5% (Methanol)

**Hazardous Combustion** 

**Products** Carbon oxides, nitrogen oxides, Hydrogen chloride gas.

**Special Protective Equipment and** 

**Precautions for Firefighters** Wear full firefighting gear and self-contained breathing apparatus (SCBA) for

protection against possible exposure..

Date of Revision: March 15, 2022

#### Section 6 – Accidental Release Measures

adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe

areas. Beware of vapours accumulating to form explosive concentrations.

Vapours can accumulate in low areas.

**Environmental precautions** Prevent further leakage or spillage if safe to do so. Do not let product enter

drains. Discharge into the environmentmust be avoided.

Methods and materials for

containment and cleaning up Contain free liquid if possible. Pick up by covering with an activated carbon

absorbent or other suitable inert absorbent material (e.g. sand, sawdust, general-purpose binder). Take up & place in closed containers. Ventilate area & wash spill site after material pickup is complete. Contain and dispose of wash water in

accordance with local regulations.

### Section 7 - Handling and Storage

Precautions for safe handling Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Keep away

from sources of ignition - No smoking. Take measures to prevent the build-up of

electrostatic charge.

**Conditions for safe storage** 

Keep container tightly closed in a dry and well-ventilated place.

Incompatible Conditions

Heat, Flames, Sparks.

**Incompatible Materials** Oxidizing materials. Acids, Acid anhydrides, Acyl and Alkyl halides.

# Section 8 – Exposure Controls / Personal Protection

**Occupational Exposure Limits** 

Ingredient Name Exposure Limits

Methanol Canada, Alberta, Occupational Health and Safety Code (table 2: OEL)

TWA: 200ppm

STEL: 250ppm

Benzyltrimethylammonium chloride Canada, Alberta, Occupational Health

and Safety Code (table 2: OEL)

Not Established

Personal protective equipment

**Eye/face protection** Chemical safety glasses with side shields to prevent eye contact. As a general rule

do not wear contact lenses when handling chemicals. If contact is possible, the following protection should be worn: Splash goggles. Safety eyewear complying with an approved standard should be used when a risk assessment indicates this

is necessary to avoid exposure to liquid splashes, mists, gases, or dusts. If inhalation hazards exist, a full-face respirator may be required instead.

**Skin protection** Wear chemical resistant gloves, impermeable protective clothing and safety

shoes. Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a

specialist before handling this product.

Date of Revision: March 15, 2022

**Respiratory protection** Use a properly fitted, air-purifying or supplied air respirator complying with an

approved standard if a risk assessment indicates this is necessary.

**General hygiene Considerations** 

Handle in accordance with good industrial hygiene and safety practices. Eye wash

fountains and safety showers must be easily accessible.

Specific engineering controls Use only with adequate ventilation. Use process enclosures, local exhaust

> ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. Use explosion-proof

ventilation equipment.

# Section 9 - Physical and Chemical Properties

**Physical State** Liquid **Water Solubility** Complete

64.7°C (Methanol) **Appearance & Odour** Clear, colourless to pale **Boiling Point** 

brown, alcohol-like odour. **Vapour Pressure** 97.7 mmHg @ 20.0°C **Boiling Point Range** Not available

(Methanol)

Vapour Density 1.11 (air = 1) (methanol) **Melting Point** -40°C

-40°C Specific Gravity 0.98 - 1.02**Freezing Point Lower Explosive Limit (LEL)** 6 % (Methanol)

Partition coefficient (n--0.77 (Methanol) octonal/water)

6.8 - 7.8**Upper Explosive Limit (UEL)** 36 % (Methanol) Hq Flashpoint (Method) 46.1°C (PMCC) **Auto Ignition temperature** Not available **Odour Threshold** Not available **Evaporation Rate** Not available

Flammability (Solid, Gas) Not available **Decomposition Temperature** Not available

Viscosity Not available

## Section 10 – Stability and Reactivity

Reactivity Containers may rupture or explode if exposed to heat.

**Chemical stability** Stable under recommended storage conditions.

Possibility of hazardous

**Reactions** Vapours may form explosive mixture with air.

Conditions to avoid Heat, flames and sparks.

Materials to avoid Oxidizing materials. Acids, Acid anhydrides, Acyl halides and Alkyl halides.

Attacks copper, aluminum, zinc, nickel and cast iron.

**Hazardous decomposition** 

**Products** Hazardous decomposition products formed under fire conditions. - Carbon

oxides, Nitrogen oxides.

Other decomposition products - No data available

### **Section 11- Toxicological Information**

Information on Likely Routes of Exposure

**Inhalation** Toxic if inhaled. May cause respiratory tract irritation.

Date of Revision: March 15, 2022

**Skin** Toxic if absorbed through skin. Causes skin irritation.

**Eye** Causes serious eye irritation .

**Ingestion** Toxic if swallowed.

**Acute and Chronic Toxicity** 

Poison. Toxic if swallowed, in contact with skin or if inhaled. If swallowed there is

a risk of blindness.

**Acute toxicity** 

**Product/Ingredient Name** Result Species Dose **Exposure** Methanol 4 Hr LC50 Inhalation, vapour Rat 128.2mg/L LD50 Oral 1187-2769mg/kg Rat LD50 Dermal Rabbit 17100mg/kg Benzyltrimethylammonium chloride LD50 Oral 300mg/kg Rat

**Skin corrosion/irritation** Causes skin irritation.

Serious eye damage/eye irritation

Causes serious eye irritation.

Respiratory or skin sensitization

Does not cause skin sensitization.

**Germ cell Mutagenicity** No known significant effects or critical hazards.

Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as

probable, possible or confirmed human carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a

carcinogen or potential carcinogen by ACGIH.

**Reproductive toxicity** Methanol may cause teratogenic/embryotoxic effects based on studies in

laboratory animals.

Specific target organ toxicity - single exposure (Globally Harmonized System)

Causes damage to organs.

Specific target organ toxicity - repeated exposure (Globally Harmonized System)

This substance or mixture is not classified as specific target organ toxicant,

repeated exposure.

**Aspiration hazard** No aspiration toxicity classification.

Delayed and Immediate Effects and also Chronic Effects from Short and Long Term Exposure

**Short Term Exposure** 

**Potential immediate Health Effects** 

Poison. Toxic if swallowed, in contact with skin or if inhaled. Causes skin irritation. Causes serious eye irritation.. A latent period of several hours may occur between exposure and the onset of symptoms.

**Potential Delayed Health Effects** 

Can cause damage to organs through prolonged or repeated exposure.

**Long Term Exposure** 

Potential immediate Health Effects

No data available.

Potential Delayed Health Effects

No data available.

Potential Chronic Effects May cause liver and kidney damage.

Synergistic effects Alcohols may interact synergistically with chlorinated solvents (example - carbon

tetrachloride, chloroform, bromotrichloromethane), dithiocarbamates (example -

disulfiram), dimethylnitrosamine and thioacetamide.

Date of Revision: March 15, 2022

Persistence and degradability

Biodegradability

Methanol aerobic

Result: 72 % - readily biodegradable Method: OECD Test Guideline 3-1D

Other components have unknown biodegradability.

Bioaccumulative potentialNo data available.Mobility in soilNo data available.PBT and vPvB assessmentNo data available.Other adverse effectsNo data available

### Section 13 - Disposal Considerations

**Product** This combustible material may be burned in a chemical incinerator equipped with

an afterburner and scrubber. Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service

to dispose of this material.

**Contaminated packaging** Dispose of as unused product.

## **Section 14 - Transportation Information**

CANADA Transportation of Dangerous Goods (TDG)

Shipping Name UN1992, Flammable Liquid, Toxic, N.O.S, 3. PG II

Class 3 (6.1)
UN Number UN1992
Packaging Group:

Label

3

Not a marine pollutant.

Environmental hazards

Transportation in bulk,

if applicableNo data availableSpecial PrecautionsNo data available

Date of Revision: March 15, 2022

### Section 15 - Regulatory Information

DSL (Canadian Domestic Substances List) and CEPA (Canadian Environmental Protection Act)

All components of this product are in compliance with the chemical notification

requirements of the NSN Regulations under CEPA, 1999.

**TSCA Inventory (8b)** All components are listed or exempted.

This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations and the SDS contains all the information required by the Hazardous Products Regulations.

#### Section 16 – Other Information

**REVISION SUMMARY:** 

Date of Preparation April 1, 2017

Date of Revision March 15, 2022
