Section 1 - Chemical Product and Company Identification

Product Name
Synonyms
Product Use
Restrictions On Use
Supplier

General Assistance Emergency Telephone

Date of Preparation of SDS

StaTherm SRT 80 inhibited TEG 80 Various use, chemical intermediate, heat transfer fluid Not Applicable CFR Chemicals 38451 Range Road 22 County of Red Deer T4E 2N6 1 (877) 269-3419 Not Dangerous Goods – Call General Assistance April 1, 2017

Section 2 – Hazard Identification

Signal Word	Warning
GHS Pictogram(s)	None
Hazard Statement:	
H316	Causes mild skin irritation.
H320	Causes eye irritation.
Precautionary Statement	
P264	Wash skin thoroughly after handling.
Response	
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P332 + P313	IF SKIN IRRITATION OCCURS: Get medical advice / attention.
P337 + P313	IF EYE IRRITATION PERSISTS: Get medical advice / attention.
Storage	
No Statements.	
Disposal	
P501	Dispose of contents/container to an approved waste disposal unit.
GHS Classification	Skin irritation (Category 3)
	Eye irritation (Category 2B)
HMIS Classification	
Health Hazard	1
Chronic Health Hazard	*
Flammability	1
Physical Hazards	0

Section 3 – Composition Information on Ingredients

HAZARDOUS INGREDIENT,

Hazardous Ingredient, Synonyms

PERCENT CAS NUMBER

Date of Revision: March 15, 2022

Common Name			
Triethylene Glycol	TEG, 2,2'-(ethylenedioxy)diethanol; TEG; 2,2'- [1,2-ethanediylbis(oxy)]bisethanol; Triglycol	80%	112-27-6
Water	H ₂ O, Aqua	15 –20%	7732-18-5
Potassium hydroxide	Caustic Potash, Lye	0-1%	1310-5-3
Phosphoric acid, 75%, aqueous solution	s Orthophosphoric Acid	0-1%	7664-38-2
Ethylene Glycol	1,2-ethanediol, EG, Glycol	0-1%	107-21-1
Disodium tetraborate, pentahydrate	Aqua	0 – 0.9%	12173-04-3
Sodium 4(or 5)-methyl-1H- benzotriazolide	Not Applicable	0-0.45%	64665-57-2
Sodium Nitrite	Not Applicable	0 -0.36%	7362-00-00
Non-hazardous corrosion inhibitors and pH buffers	Not Applicable	0 - 0.15%	Trade Secret
Polydimethylsiloxane	Not Applicable	0-0.1%	63147-62-9
Silica filled polydimethylsiloxane	Not Applicable	0-0.04%	67762-90-7
Sucrose distearate	Not Applicable	0-0.04%	27915-16-0
Chemical Formula	* = Various ** = Mixture *** = Proprietary Not Applicable		

Section 4 - First Aid Measures

Inhalation	Move casualty to fresh air and keep at rest. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention.	
Eye Contact	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower lids. Check for and remove contact lenses. Continue to rinse for at least 15 minutes. Get medical attention.	
Skin Contact	Flush contaminated skin with plenty of water. Remove contaminated clothing and shows. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.	
Ingestion	Get medical attention immediately. Call a poison control centre or physician. IF alert, rinse mouth and drink ½ to 1 glass of water to help dilute the material. Do not give liquids to a drowsy, convulsion, or unconscious patient. Do NOT induce vomiting. If vomiting occurs, the head should be kept low so vomit does not enter the lungs. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as collar, tie, belt or waistband.	
Most Important Symptoms/Effects both Acute and Delayed		
	Harmful if swallowed. Symptoms may include headache, nausea, vomiting May cause slight eye and skin irritation. Symptoms include: Redness, swelling, itching and dryness.	

Date of Revision: March 15, 2022

Note to Physician

Consult a physician. Show this safety data sheet to the doctor in attendance.

Section 5 – Fire-Fighting Measures

Flash Point (°C) Flash Point Method Auto Ignition Temperature Conditions of Flammability	Not Flammable PMCC 347°C Not flammable or combustible.
Extinguishing Media	Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
Unsuitable Extinguishing	
Media	Water jet.
Unusual Fire/	
Explosion Hazard	No data available.
Hazardous Combustion	
Products	Carbon oxides.
Fire Fighting Equipment	Wear appropriate protective equipment and self-contained breathing apparatus with a full face-piece operated in positive pressure mode.
Special Precautions for Firefighters	No data available.

Section 6 – Accidental Release Measures

Personal precautions	Use personal protective equipment. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapour can accumulate in low areas.
Environmental precautions	Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.
Methods and materials for	
containment and cleaning up	Soak up with inert absorbent material and dispose of as hazardous waste. Keep in suitable, closed containers for disposal.

Section 7 – Handling and Storage

Precautions for safe handling Conditions for safe storage	Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Hygroscopic.
Incompatible Materials	Strong Acids, Strong Bases. Strong oxidizing agents.

Section 8 – Exposure Controls / Personal Protection

Exposure Limits

|--|

Date of Revision: March 15, 2022

Triethylene Glycol	ACGIH TLV
Potassium hydroxide	Ceiling: 50ppm, 127mg/m ³ Canada, Alberta OHSC Code
	None established ACGIH
	Ceiling: 2mg/m ³

	do not wear contact lenses when handlin
	following protection should be worn: Spla
	with an approved standard should be use
	is necessary to avoid exposure to liquid sp
	inhalation hazarda oviat a full face reanir

Eye/face protection	Chemical safety glasses with side shields to prevent eye contact. As a general rule do not wear contact lenses when handling chemicals. If contact is possible, the following protection should be worn: Splash goggles. Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases, or dusts. If inhalation hazards exist, a full-face respiratory may be required instead.
Skin protection	Wear chemical resistant gloves, impermeable protective clothing and safety shoes. Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	Use a properly fitted, air-purifying or supplied air respirator complying with an approved standard if a risk assessment indicates this is necessary.
General hygiene	
Considerations	Handle in accordance with good industrial hygiene and safety. Eye wash fountains and safety showers must be easily accessible.

Date of Revision: March 15, 2022

Specific engineering controls

Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. Use explosion-proof ventilation equipment.

Section 9 – Physical and Chemical Properties

Physical State
Appearance & Odour
Vapour Pressure
Vapour Density
Specific Gravity
Partition coefficient (n-
octonal/water)
рН
Flashpoint (Method)
Odour Threshold
Flammability (Solid, Gas)
Decomposition Temperature

Clear, colourless. Odourless. <1 mmHg (20.0°C) (TEG) 5.18(Air = 1) (TEG) 1.10 – 1.12 Not available. Not available. Not Flammable. Not available. Not available. 203°C

Liquid

Section 13 – Disposal Considerations

Product

Do not discharge substance/product into sewer system. Dispose of in accordance with national, regional, and local regulations.

Contaminated packaging

Dispose of as unused product in a licensed facility. Recommend crushing, puncturing, or other means to prevent unauthorized use of used containers. Do not cut, weld, or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled materials and runoff and contain with soil, waterways, drains, and sewers.

Section 14 - Transportation Information

CANADA Transportation of Dangerous Goods (TDG) **Not Dangerous Goods**

Section 15 – Regulatory Information

DSL (Canadian Domestic Substances List)

and CEPA (Canadian Environmental Protection Act)

All components of this product are in compliance with the chemical notification requirements of the NSN Regulations under CEPA, 1999.

TSCA Inventory

All components are listed or exempted.

This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations and the SDS contains all the information required by the Hazardous Products Regulations.

Date of Revision: March 15, 2022

Section 16 – Other Information
