

StaSolv™ 214

Paraffin Solvent, Dispersant & Degreaser

PHYSICAL DESCRIPTION

Appearance Clear, Colourless to Pale Yellow, free-flowing

liquid

Freezing Point < -40°C

Flash Point -30°C (PMCC)
Specific Gravity 0.65 – 0.76
Solubility Oil – Soluble
Odour Hydrocarbon

PROPERTIES

StaSolv™ 214 is our specialized premier well optimization and wax solvent, composed only of refined, paraffin-free hydrocarbon products, that contains a field-proven wax dispersant and a higher concentration of a powerful degreasing additive

StaSolv™ 214 is often recommended to treat wells with long chain wax deposits and tough, aged and hard deposits that require higher quantities of dispersant packages.

StaSolv™ 214 can be used to aid in cleaning up sludge and emulsions, workover fluids or as a heavy crude oil diluent.

StaSolv™ 214 will not alter natural wettability within downhole formations, but will penetrate fouling on formation surface and help remove waxy deposits, through dual action of the dispersant and degreasing additive.

BENEFITS

StaSolv^m 214 will soften and help remove paraffin deposits with chain lengths from C_{16} to C_{44+} , that collect on both down-hole and surface production equipment.

StaSolv[™] 214 allows effective wetting of downhole surfaces; dispersant will act as a surface penetrant of paraffinic deposits.

StaSolv™ 214 is also a capable degreaser, leading to further cleaning of down hole and surface production equipment.

StaSolv™ 214

Paraffin Solvent, Dispersant & Degreaser

MIXING & HANDLING INSTRUCTIONS

StaSolv™ 214 should be applied in neat form, typically with dosages of 1000 to 2000ppm in produced oil for continuous injection purposes.

StaSolv™ 214 is designed to remove and disperse paraffinic deposits.

StaSolv[™] 214 can be applied on a continuous basis or batch application.

For maximum effectiveness, a shut period is recommended to assist in maximum paraffinic deposit removal if a batch application is used.

CAUTION

Highly flammable liquid and vapour. May be fatal if swallowed and enters airways. Harmful in contact with skin. Causes skin irritation and causes eye irritation. May cause drowsiness or dizziness. Suspected of causing cancer. May cause damage to organs through prolonged or repeated exposure.

Handle with care as with any industrial chemical.

Before using this product refer to the Safety Data Sheet for all safety and handling information.

StaSolv™ 214 is available in 20L pails, 205L drums, 1000L totes and in bulk.

Please consult your local CFR Sales representative for technical support or further product inquiries.
